### CHRISTINE ROSE, A.C.C. Executive & Business Coach EMPOWERING WOMEN to Create Your Best Future

Too many women don't know their real worth and don't own their power. They default to operating from a mindset of limiting beliefs and unhelpful, often untrue stories. As a result their lives, careers and the companies they own don't reflect the value that they truly deserve.

Christine's mission is to help as many women as possible create and live their best future by design. Through powerful questions, strategic steps, and transformative solutions. Christine helps women confidently uncover their authentic goals and create their unique proactive plan to attain them.

After retiring in 2014 at the age of 53 from a career in business and nonprofit fund development, she founded Christine Rose Coaching and Consulting. She belongs to the International Coach Federation, International Christian Coaches Association and is a Taylor Ptotocos CVI certified coach. She is a graduate of Coach U's Advanced Corporate Coaching program. Christine holds a Bachelor's in Business Administration from Georgetown University and a certificate in Fundraising Management from the UW.
